[Introduction to Cybersecurity](#)

Issued by: Cisco

Issued to: Napat Putsorn

Issued on: 13 November 2025

Description: Cisco verifies the earner of this badge successfully completed the Introduction to Cybersecurity course. The holder of this student-level credential has introductory knowledge of cybersecurity, including the global implications of cyber threats on industries, and why cybersecurity is a growing profession. They understand vulnerabilities and threat detection and defense. They also have insight into opportunities available with pursuing cybersecurity certifications.

[Networking Basics](#)

Issued by: Cisco

Issued to: Napat Putsorn

Issued on: 30 November 2025

Description: Cisco verifies the earner of this badge successfully completed the Networking Basics course and achieved this student level credential. Earner has knowledge of the types of networks, how they work, how devices send and receive data, the types of network cabling, how IP addresses find information on the Internet, how transport and applications operate, and has practiced building a home wireless network. Participated in up to 13 Cisco Packet Tracer activities.

[Networking Devices and Initial Configuration](#)

Issued by: Cisco

Issued to: Napat Putsorn

Issued on: 22 December 2025

Description: Cisco verifies the earner of this badge successfully completed the Networking Devices and Initial Configuration course and achieved this student level credential. Earner learned characteristics and benefits of cloud and virtualization, explored how to provide Internet Protocol (IP) addresses to devices, calculate an IP addressing scheme, configured Cisco devices to create a small network and tested for connectivity issues. Participated in up to 7 labs and 12 Cisco Packet Tracer activities.

[Network Addressing and Basic Troubleshooting](#)

Issued by: [Cisco](#)

Issued to: Napat Putsorn

Issued on: 23 January 2026

Description: Cisco verifies the earner of this badge successfully completed the Network Addressing and Basic Troubleshooting course and achieved this student level credential. Earner has knowledge of physical, data link and network layers, how they work together to provide end-to-end connectivity, and also understands IPv6 addressing functions and how to obtain one and the neighbor discovery process. Practiced troubleshooting skills to keep a network up and running in up to 13 Cisco Packet Tracer activities.

[Network Support and Security](#)

Issued by: [Cisco](#)

Issued to: Napat Putsorn

Issued on: 27 February 2026

Description: Cisco verifies the earner of this badge successfully completed the Network Support and Security course and achieved this student level credential. Earner has knowledge to support endpoints, networks, and users including diagnostics and documentation as a member of a help desk team as well as an in-depth view of troubleshooting of networks and endpoints and knowledge and skills regarding supporting users and networks remotely. Participated in up to 10 labs and Cisco PT activities.

[Network Technician Career Path](#)

Issued by: [Cisco](#)

Issued to: Napat Putsorn

Issued on: 27 February 2026

Description: Cisco verifies the earner of this badge successfully completed the Networking Technician career path and achieved this student level credential. Earner has knowledge of networking fundamentals, how devices communicate, cabling, network addressing and services, basics of configuring Cisco devices, troubleshooting and support of endpoints, networks, and users including diagnostics and documentation as a member of a help desk team, and basic wireless. Participated in up to 50 practice activities.

[Python Essentials 1](#)

Issued by: [Cisco](#)

Issued to: Napat Putsorn

Issued on: 24 May 2026

Description: Cisco, in collaboration with OpenEDG Python Institute, verifies the earner of this badge successfully completed the Python Essentials 1 course and achieved the student level credentials. Earners have knowledge of the concepts of computer programming, the syntax and semantics of the Python language as well as demonstrate the ability to accomplish coding tasks related to the essentials of programming in the Python language and resolve implementation challenges using the Python Standard Library.
